JIGGING ASSIST RIGS

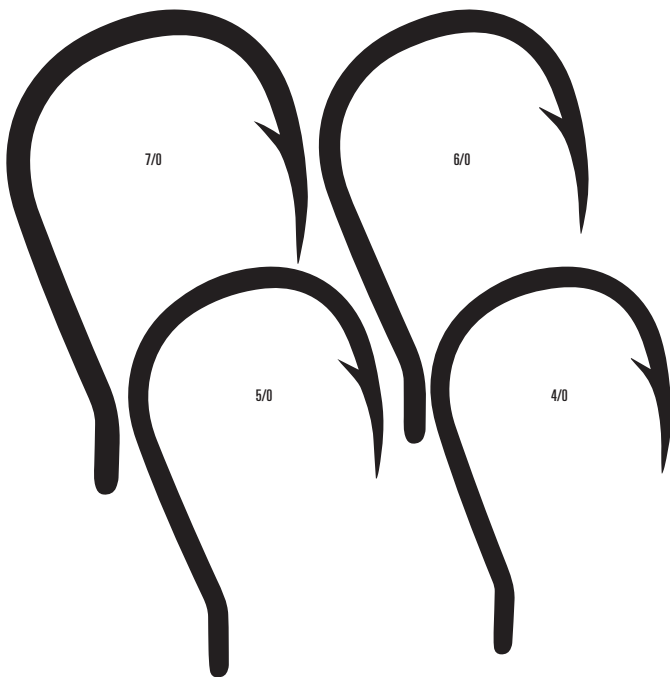

ULTRAPPOINT
STAYS SHARPER LONGER

The comprehensive range of Mustad jigging assist rigs covers different genres of vertical jigging. Available in four different models to cater for light jigging, slow pitch jigging, vertical jigging and heavy jigging, much thoughts and efforts were put into the design and testing of this range of products. The purpose built jigging hooks were tested over a period of 2 years by our team of pro staff in many different locations before they were launched. Along with the quality hooks manufactured by our own Mustad factory, we only use high quality PE and Kevlar materials for making these rigs. All rigs come with dressings in the form of tinsels, reflective paper and glow beads to enhance the attractiveness of your jig
