

# XV2 CARP RANGE

It is with great pleasure to present our XV2 Carp Range, covering most applications on modern Carp fishing. For this season, this range is offered with Mustad's new mat gray titanX giving an exceptional strong none flashy finish. At the same a ultra smooth hook for easy penetration. Also the range will be updated to the new and ultra sharp Ultrapoint 4.8 point technology. The points are a bit longer than the 4.3 point technology given an exceptional sharp hook for carp fishing.

STAYS SHARPER LONGER

The new UltraPoint 4.8 has a more narrow point than the regular 4.3 point. This gives a slimmer hook point and optimal hook setting and penetration for carp fishing. The sharpest hook point ever!

Mustad's new matt gray titanX finish is much stronger than teflon and gives a thinner coating keeping the hook point sharp. Ultra smooth hook for easy penetration.

# CARP ACCESSORIES

It is with great pleasure that we now introduce a line of innovative accessories for Carp Anglers. Just like the BBS hooks, one of our goals is making fishing as simple and effective as possible. That shows in the new Multi Rig device which can be set-up for both Bolt- and Helicopter Rigs. The Multi Needle both drills and mounts baits in one device. That makes life easier and less complicated in the tackle box.

## CA01-BM-7-10 MU-RING

A simple and strong replacement for the traditional swivel. Nothing can brake! Use for bolts rigs connecting mainline and leader. Pull the MURing into the Mustad Multirig device. Size: 7mm.
