T-TROUT

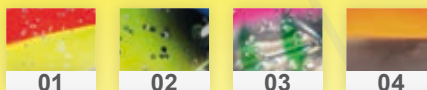

TROUT AREA

La nuova gamma di spoon leggeri della Seika è stata appositamente sviluppata per il Trout Area, tecnica emergente di light spinning alla trota. La gamma è composta da otto serie diverse studiate appositamente per ottenere le migliori performance per ogni modello. Come la tecnica richiede tutti gli spoon sono dotati di amo senza ardiglione di altissima qualità e di doppio split ring per poter sostituire l'amo. Le colorazioni sono state scelte per ogni modello in funzione delle prove effettuate e selezionate tra le più catturanti in abbinamento alla forma dello spoon stesso.

The Seika light new range spoons has been specifically developed for Trout Area fishing style, a new emerging technique of light trout spinning. The range consists of eight different series designed specifically to get the best performance for each model. All the spoons are equipped with high quality barbless hook as the technical demands and double-split ring to replace the hook. The colours have been chosen for each model as a function of the tests performed and selected among the most capturing in combination with the shape of the spoon itself.
