

# TOOLS MUSTAD TOOLS. SOMETHING YOU CAN DEPEND ON

Time spent on the water is precious. In order to do it right, you need gear that will stand up to the fish and the conditions. Mustad's tool line-up consists of many must have's in an anglers arsenal. Be it pliers to help release a fish or a fillet knife to bring one home for dinner, we have you covered.

#### **4" BAIT KNIFE - REF. MT001**

This 4" bait knife is constructed with high quality materials. The blade is made with high grade German stainless steel that is coated with DuPont™ Teflon® which adds corrosion resistance and allows the blade to slide effortlessly through the bait. The handle features an ergonomic comfort design with durable polypropylene with soft, no-slip grip. Also includes a durable, rigid safety sheath with thumb lock and line cutting channel.

#### **7" FILLET KNIFE - REF. MT002**

#### **8" FILLET KNIFE - REF. MT003**

These fillet knives are constructed with high quality materials. The blade is made with high grade German stainless steel that is coated with DuPont™ Teflon® which adds corrosion resistance and allows the blade to slide effortlessly through the fillet. The handle features an ergonomic comfort design with durable polypropylene with soft, no-slip grip. Also includes a durable, rigid safety sheath with thumb lock and line cutting channel.

#### **8" SERRATED FILLET KNIFE - REF. MT004**

This 8" fillet knife is constructed with high quality materials. The fully serrated blade is made with high grade German stainless steel that is coated with DuPont™ Teflon® which adds corrosion resistance and allows the blade to slide effortlessly through the fillet. The large handle features an ergonomic comfort design with durable polypropylene with soft, no-slip grip. Also includes a durable, rigid safety sheath with thumb lock and line cutting channel.

#### **9" BONING / FILLET KNIFE - REF. MT005**

This 9" fillet knife is constructed with high quality materials. The large boning style blade is made with high grade German stainless steel that is coated with DuPont™ Teflon® which adds corrosion resistance and allows the blade to slide effortlessly through the fillet. The large handle features an ergonomic comfort design with durable polypropylene with soft, no-slip grip. Also includes a durable, rigid safety sheath with thumb lock.

**6.5" HYBRID PLIERS**  
- MT007

Built with strength and weight in mind, these pliers are produced with high quality stainless steel and aluminum. Stainless steel coated with corrosion resistant rainbow Titanium. In order to reduce total weight, the handles are made with aircraft grade aluminum. These pliers also feature replaceable tungsten-carbide side cutters, a lanyard and durable rubber holster.

**HEAVY-DUTY 6" PLIERS WITH SHEATH**  
- MT009

Durable and functional, these pliers are built to perform. Constructed with stainless steel, the pliers are then coated with black titanium nitride for increased corrosion resistance. They feature textured jaws for a more secure hold, built-in crimper, split-ring tool, lure tuner grooves and a mono/wire cutter. They also feature durable, soft-grip handles for comfort and nylon sheath with Velcro closure and belt loop.

**HEAVY-DUTY 8" PLIERS WITH SHEATH**  
- MT010

Durable and functional, these pliers are built to perform. Constructed with stainless steel, the pliers are then coated with black titanium nitride for increased corrosion resistance. They feature textured jaws for a more secure hold, built-in crimper, lure tuner grooves and a mono/wire cutter. They also feature durable, soft-grip handles for comfort and nylon sheath with Velcro closure and belt loop.

**HEAVY-DUTY 11" LONG REACH PLIERS**  
- MT011

When dealing with toothy fish, you need longer pliers to stay safe. These extra-long reach pliers are constructed with stainless steel and then coated with black titanium nitride for increased corrosion resistance. They feature textured jaws for a more secure hold and durable, soft-grip handles for comfort.

**HEAVY-DUTY WIRE/ LINE CUTTERS**  
- MT012

Durable and functional, these cutters are built to perform. Constructed with stainless steel, the cutters are then coated with black titanium nitride for increased corrosion resistance. They feature hardened jaws for a longer cutting life. They also feature durable, soft-grip handles for comfort and nylon sheath with Velcro closure and belt loop.

**HEAVY-DUTY CRIMPER/CUTTER**  
- MT013

Durable and functional, this crimping tool is built to perform. Constructed with stainless steel, the cutters are then coated with black titanium nitride for increased corrosion resistance. They feature hardened jaws for increased durability with 2 side-cutters and lockable spring-loaded action. They also feature durable, soft-grip handles for comfort and ease of use.

**SALTWATER GRADE MECHANICAL SCALE**  
25LB - MT016

Highly accurate with stainless steel spring and hook. Body is lightweight and durable anodized aluminum. Sliding marker records weight after fish is removed from the scale. Easy-grip rubberized handle.

**24 PC BUCKET 4" BAIT KNIFE**  
- MT020

This 4" bait knife is constructed with high quality materials. The blade is made with high grade German stainless steel that is coated with DuPont™ Teflon® which adds corrosion resistance and allows the blade to slide effortlessly through the bait. The handle features an ergonomic comfort design with durable polypropylene with soft, no-slip grip.

**ALUMINIUM LIP GRIP W/SCALE**  
- MT021

This fish gripper is constructed with a combination of aluminum and stainless steel for lighter weight and performance. Jaws open easily with the spring trigger and when released, fish are held firmly. Handle features soft-grip and spring scale goes to 50 pounds. Includes a lanyard.

**6" FILLET KNIFE 24 PC BUCKET**  
- MT022

This filleting knife is constructed with high quality materials. The blade is made with high grade German stainless steel coated with DuPont™ Teflon® which adds corrosion resistance and allows the blade to slide effortlessly. The handle features an ergonomic comfort design with durable polypropylene with soft, no-slip grip.

**FINESSE MULTIPLIER**  
- MT023

Multi-function pliers in stainless steel. Excellent line cutter for wire and mono lines. Split rings and hook removal. Two built-in-knives.

**BRAID SCISSORS 24PC BUCKET**  
- MT024

These 4.5" shears are fantastic for cutting braided line as well as mono and fluorocarbon. Made of stainless steel with soft plastic handle.

**MICRO BRAID SCISSOR**  
- MT025

Ultra light aluminium construction designed to cut braided fishing lines. With comfort in mind, the handles are molded of soft rubber. They also feature a sheath that the shears slide and lock into with an attached lanyard.

**FEATHERWEIGHT ALUMINUM PLIER**  
- MT026

Lightweight and durable! Made from aircraft grade ultra-light aluminum that has been heavily anodized for greater corrosion resistance. Features coated stainless steel jaws and replaceable tungsten-carbide cutters.

**6 PIECE KNIFE SET**  
- MT027

This compact kit contains three razor-sharp stainless steel knives, a pro-style sharpening tool and a durable polymer fillet/cutting board. All items snap into custom molded pockets in rugged carrying case for easy storage.

**BRAID CUTTER & SPLIT RING PLIER 5"**  
- MT028

Durable stainless steel Finesse split ring opener. Soft touch handle, easy cutting scissors, spring-loaded & Safety latch.

**BRAID CUTTER & SPLIT RING PLIER 5"**  
**24 PCS BUCKET**  
- MT029

24 Pcs bucket of durable stainless steel Finesse split ring plier 5". Soft touch handle, easy cutting scissors, spring-loaded & Safety latch.

**BAIT SCISSOR**  
- MT030

A must have in your saltwater and predator fishing kit. Cuts chum and bait with ease, luring those big predatorson to your hook bait.
