

CLASSIC RANGE HOOKS

THE BEST VALUE HIGH QUALITY FISHING HOOKS OUT THERE!

The most important thing about a fishing hook is its ability to catch fish, and this is of course also the most important thing for Mustad when designing and developing a hook pattern.

The Mustad Classic Range offers the biggest selection of fishing hooks with unmatched strength at the very best value for the money. Our unique three-stage computer controlled tempering process transforms the hook into a fine grained, ultra strong microstructure. This increases strength up to 30 per cent compared to conventional tempering methods. However, it's not only strength that is important in this process; we need to be in control of brittleness and flexibility as well. Our superior technology allows us such control of the final outcome.

Mustad hooks feature a wide range of Colors and finishes, from black nickel and gold to bronze. The special coatings have been developed to suit the various types of fishing.

For the upcoming season, Mustad is introducing some major updates to the Classic Range. Mustad ingeniers has improved the MTL points making them 50% sharper and giving them more consistent hooks points!

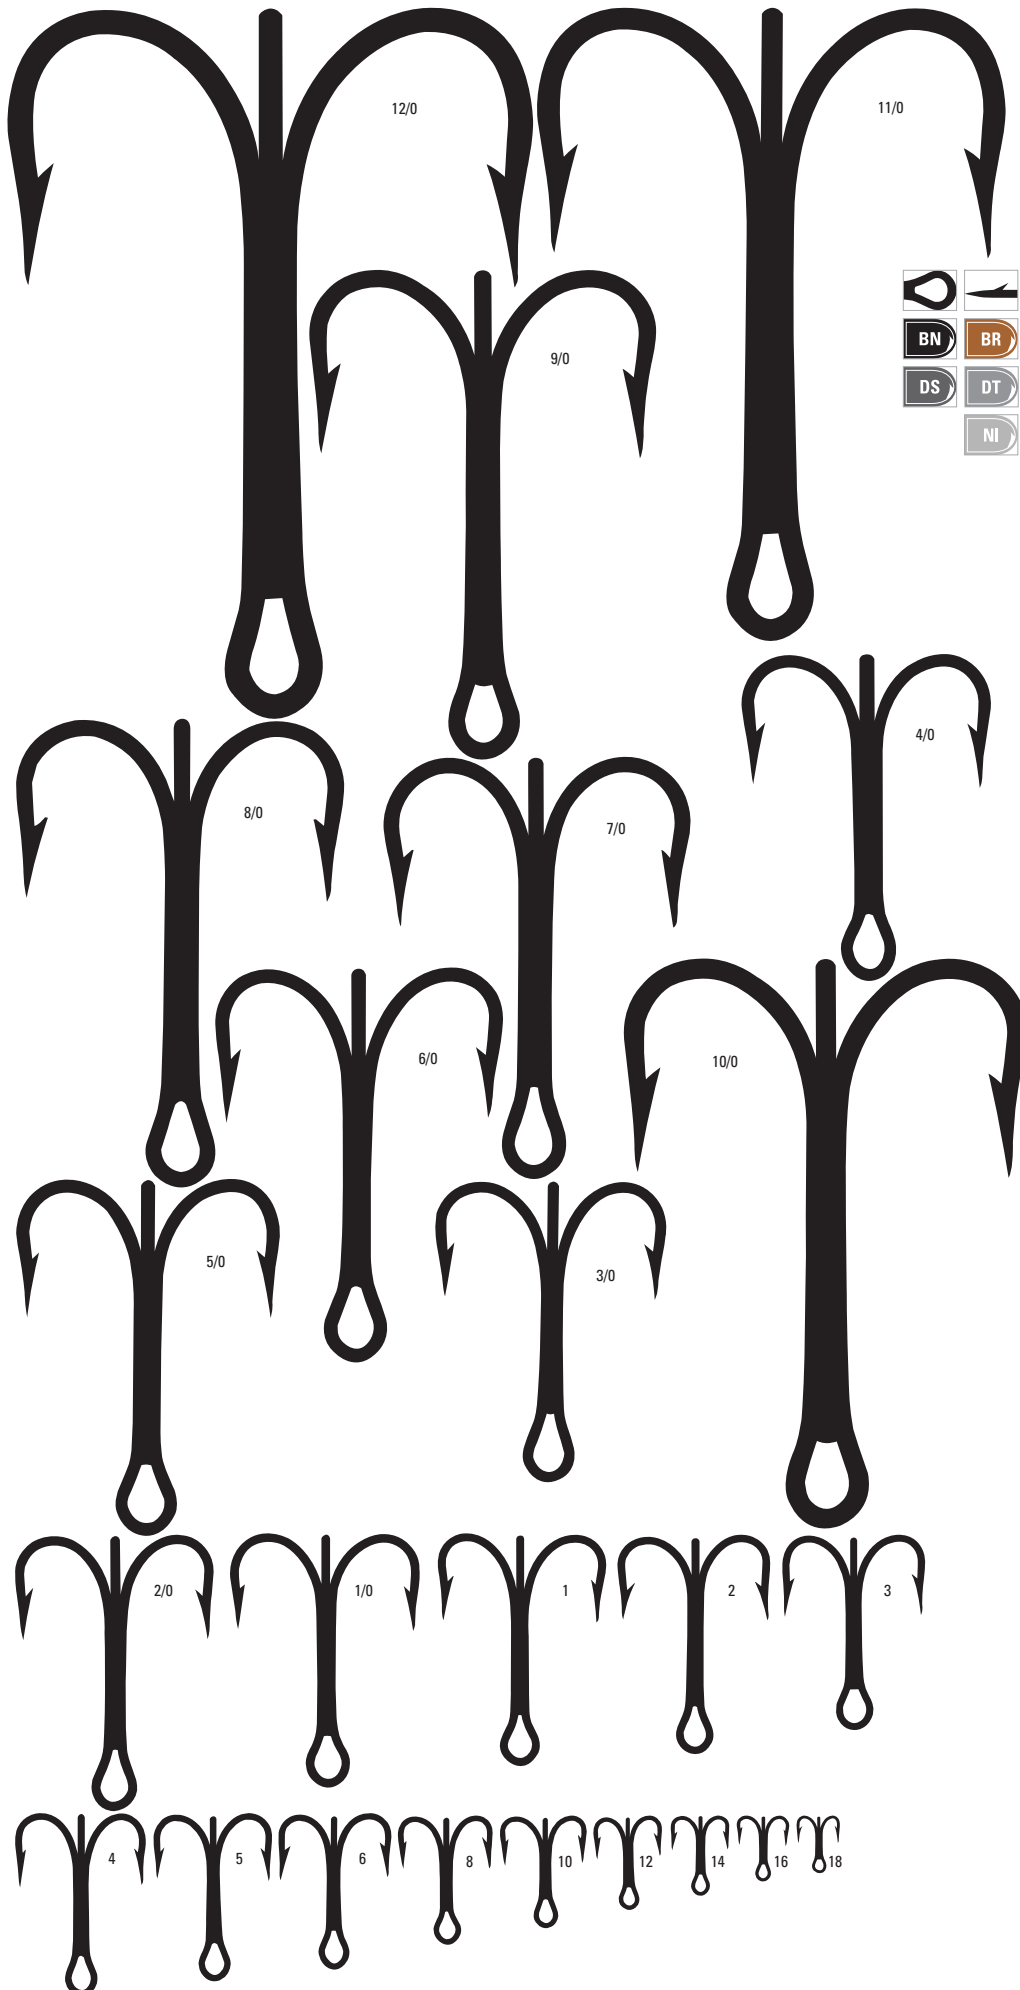

Mustad treble and double hooks will also feature a new brazing technology which gives a smooth surface and more consistent quality.

Finally the Black Nickel plating has made significantly improved corrosion resistance which has passed the 24 hour salt chamber test. Environmental friendly. Huge steps for the Classic Range and at the same pricing!

Don't be fooled by the price of the Mustad Classic Range these hooks are of high quality wire! All hook wires are individually sized for each hooks size and made in Norway.

Classic treble hook with standard shank length. Great all round treble hook for any situation.

LR-3674BLN MUSTAD LURE RYDER HOOK

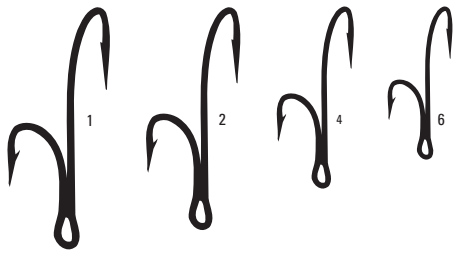

REF. LR-3674BLN
Pack Code Size
T06 2/0,1/0,1,2, 4,6,8

Tie Thor Fluorocarbon monofilament to the jig hook shank, close to the eye. Then mount the hook with a single sleeve, Mustad ref. 77260. Using the sleeve makes it easier to adjust the leader length and then position the Lure Ryder properly. Hook the Lure Ryder on the soft plastic lure and you are ready to fish! The Lure Ryder is very light and doesn't interfere with the movement of the soft plastic lure tails, but is dramatically increasing your catches!

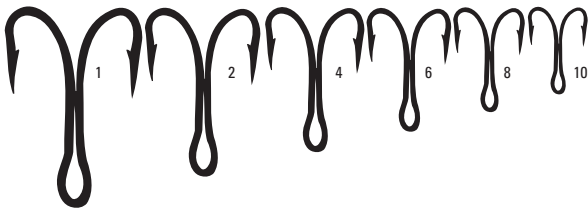

MUSTAD RYDER DOUBLE HOOK 35890-BR
